

THE OREGON PUBLIC HEALTH MODERNIZATION ROADMAP IS NOW ONLINE

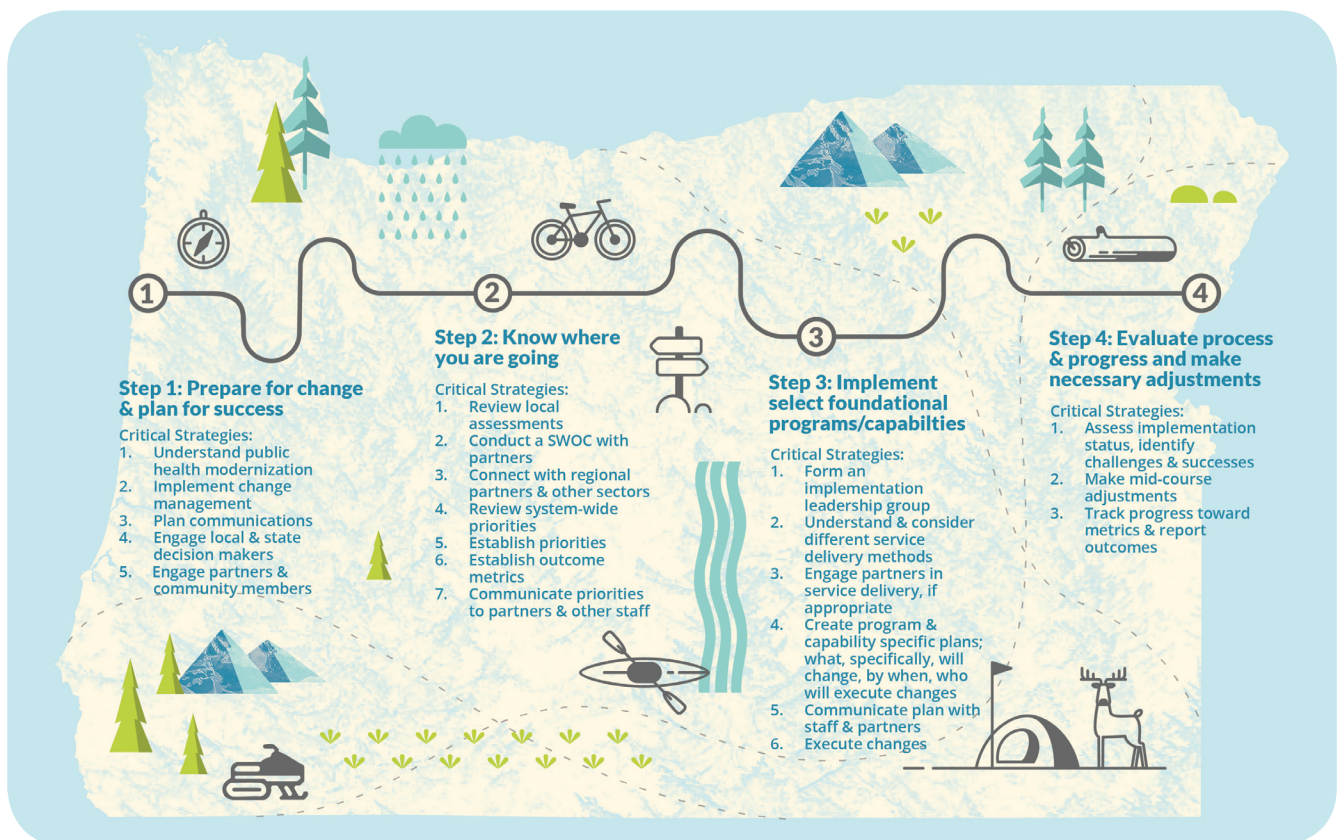

2018

VISIT ORPHROADMAP.ORG TODAY!

Public Health Modernization means everyone in Oregon can expect basic public health protections critical to their health and the health of future generations.

The Public Health Modernization Roadmap is an online toolkit that will help local health departments communicate about modernization with partners, work on critical foundational capabilities like health equity and leadership, understand the steps for successful change management, and more. Developed collaboratively with local health department administrators, the roadmap sets out a simple four-step structure for implementing modernization.

For those who are just getting started or want a refresher course, the Roadmap also features a **Modernization 101 learning module**.
